

# 360° Disinfection: With complete care and attention

When your precious spaces need that extra care and attention, Citron Hygiene offer you the unique Sani-Plus 360° electrostatic disinfecting service.

Using a force stronger than gravity, Sani-Plus complete disinfection service gives you better protection against the spread of germs and viruses without degrading any of your fine furnishings or wall art.

Electrostatic technology, enables the 360° application of charged particles. These particles wrap around the entire surface, ensuring a uniform application. Sani-Plus disinfecting will keep your facility safe, eliminating bacteria, viruses and odours.

Citron has over 40 years experience in professional hygiene services and our trained technicians are experts in hygiene. The disinfectant we use has undergone extensive testing, and is proven to kill 99.9% bacteria within 5 seconds. Effective against Poliovirus Type 1 and Canine Parvovirus and likely to kill the SA S-CoV-2 (the virus that causes COVID-19).
