

EcoAire

Breathe Easy

The EcoAire air care system uses a non-aerosol, hydrogen based odour neutraliser that is effectively distributed through natural air flow. It is environmentally friendly and has silent operation.

Why Implement an Air Care System?

Smell Matters

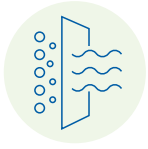

Research shows that washroom users will evaluate the cleanliness of your washroom with smell, before sight.

Create a Positive Experience

Washrooms are small, but make a big impression. Ensure your visitors have a good user experience and positive association with your business.

Reliable, Hassle-Free Service

Our Hygiene Technicians ensure that your washroom users are cared for, with on-time, reliable refill services.

Product Overview

Continuous Odour Control

- ✓ Continuous odour control 24 hours a day creating a pleasant washroom environment
- ✓ Innovative – uses a non-aerosol, hydrogen based revolutionary fuel cell technology
- ✓ Less waste – made from natural fragrance oils and no batteries
- ✓ Contemporary, compact and discreet
- ✓ Recommended in areas of up to 170m³ and positioned 180cm from the floor and doorways
- ✓ Installed by our engineers and serviced by Citron Hygiene Technicians

How Does It Work?

EcoAire continually releases an odour neutralising formula into the washroom environment. When serviced on a predetermined schedule by our expert technicians, it manages odours effectively and continuously.
