

CitronScent

Breathe Easy

The CitronScent aroma system is the ideal solution to creating a unique environment that encourages customers to stay.

Why Implement an Air Care System?

Smell Matters

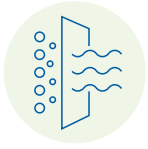

Research shows that washroom users will evaluate the cleanliness of your washroom with smell, before sight.

Create a Positive Experience

Washrooms are small, but make a big impression. Ensure your visitors have a good user experience and positive association with your business.

Reliable, Hassle-Free Service

Our Hygiene Technicians ensure that your washroom users are cared for, with on-time, reliable refill services.

Product Overview

Continuous Odour Control

- ✓ Specially blended fine fragrances with no propellants or VOCs
- ✓ Dry mist (micro-nebulisation)
- ✓ Droplets less than one micron in size
- ✓ Variable programming – adjustable 1% to 100% diffusion output
- ✓ Ideal for spaces up to 600m³
- ✓ Locked in cartridge system for security
- ✓ Easy to set-up and quick servicing
- ✓ Units installed by Citron Engineers and serviced by Citron Hygiene Technicians

How Does It Work?

CitronScent works through vapour evaporation, using sub micron micro-diffusion technology to ensure a long lasting scent.

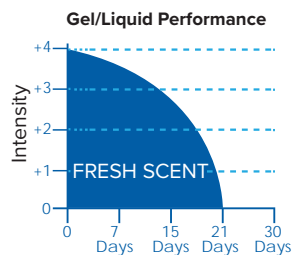

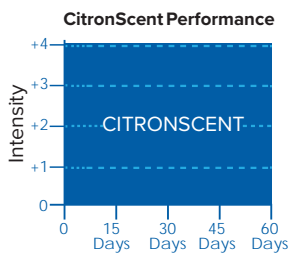

With the release of a timely spray of fragrance, the right dose is delivered every time. The unit can be set to operate on certain days and specific times, so no need to have it operating when your business isn't.
