

## Heavy Duty Scraper Mat

*Increase your protection against dirt and moisture in even the toughest of locations*

The heavy duty scraper mat has been specially designed for heavy duty and outdoor use. This mat acts as an effective first line of defence in all weather conditions.

### By outsourcing your floorcare service you benefit from:

#### Highly-Cost Effective Method

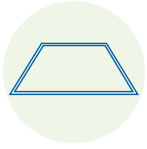

Trap deposits of mud, snow, sand and grit at the entrance to your building, reducing cleaning costs and the risk of your visitors from slipping.

#### Aesthetic Floorcare Solution

With various sizes we can offer you an attractive, eye catching alternative to floorcare.

#### Reliable, Hassle-Free Service

Your mats are maintained to the highest standards, with a 'lift and lay' service by Citron Hygiene Technicians.

## Product Overview

### Designed For Heavy Duty And Outdoor Use

- ✓ Improved business image - clean floors provide an excellent first impression for people entering the building
- ✓ Effective in all climates and particularly where there is risk of heavy soiling – such as industrial plants or factory sites
- ✓ Nitrile rubber backing for excellent stability and slip resistance on this industrial mat

### Effective Floorcare Solution

50% of all reported accidents are due to slips and trips. It is important as a business to take the appropriate action required to provide floorcare solutions that prevent dirt and moisture entering your building, which can lead to your floors becoming a slip hazard.
