

Hygeia

Safe, Sanitary, Stylish

An innovative, touchless, discreet sanitary hygiene disposal unit designed to reduce cross-infection risks from blood-borne pathogens and provide a hygienic, pleasant washroom experience.

By outsourcing your sanitary hygiene disposal you benefit from:

Reliable, Hassle-Free Service

Our liner replacement service includes expert waste removal, on-site disinfection and battery replacement to keep each unit in good working order.

Cost Savings

Fewer plumbing issues from sanitary products being flushed down the toilet.

A Healthy Environment

Touch-free disposal keeps employees and visitors safe from blood borne pathogens.

Product Overview

Attractive and Functional Design

- ✓ Wall-mounted design improves utilisation of space in small washrooms
- ✓ Touch-free operation – infrared sensor detects hand movement for hygienic, touch-free operation
- ✓ Reduces risk of cross-contamination and exposure to blood-borne pathogens
- ✓ Stylish unit wraps can be customer branded depending on order quantity

Innovative and Hygienic

- ✓ Installed by Citron Hygiene Engineers and serviced by Citron Hygiene Technicians
- ✓ Suitable for all washrooms (male, female, gender-neutral) and can be used for male incontinence products (not nappies)
- ✓ E-card effective against all enveloped viruses including SARS-CoV-2 (COVID-19) Hep B, Hep C, Herpesviridae and HIV, proven to last at least 6 weeks
