

# Environmental Policy

Citron Hygiene UK Limited provides a wide range of washroom and healthcare waste services to its customers. We ensure, as far as it is reasonably practicable, that our operations will be carried out with a commitment to protecting and enhancing the environment. We are dedicated to conducting ourselves in a responsible and sustainable manner to protect people and the environment.

We recognise that our activities have an environmental impact. In developing this policy, we seek to confirm our commitment to manage environmental issues appropriately. This policy has the full support of the Directors.

In implementing this commitment to manage our environmental impact we will:

1. Fully comply with environmental regulations and codes of practice.
2. Ensure that environmental considerations are integrated into our business decisions as we develop products and services.
3. Ensure that we use risk assessments in order to identify potential environmental risks.
4. Actively pursue opportunities to minimise the environmental impact of our operations, concentrating particularly on the reduction of carbon emissions from our vehicles, reducing waste sent to landfill, and reducing our use of non-recyclable products.
5. Attempt to develop a wider understanding of environmental issues among our suppliers and employees.
6. Regularly review our policies to ensure that they remain properly aligned to the need to reduce waste and encourage the most effective utilisation of scarce resources.
7. Ensure colleagues have the tools and training to understand and meet our environmental commitments.
8. Report the Citron Hygiene UK organisational carbon footprint each calendar year (the report follows standard ISO-14064-1:2006).

We will support our colleagues to take ownership of the environmental impact of their work and will take on board their feedback on how to improve our performance further.

This Policy, systems and procedures laid down are based on the requirements of the relevant Environmental Management Systems (Certificate Number 220316) as applicable to Citron Hygiene UK Limited.

This policy is to be displayed at all Citron Hygiene business premises and will be communicated to all colleagues.

A handwritten signature in black ink, appearing to read "Robert Guice".

Robert Guice, Chief Executive  
Citron Hygiene UK Limited
